

Volume contents

Volume 20 No. 1 July 1994

Review

- Perspectives on zinc finger protein function and evolution – an update** 1
T. Pieler, E. Bellefroid

Research articles

- Transfer RNA analysis during the reproductive cycle of a freshwater teleost, *H. fossilis*** 9
M. Sarkar, P.R. Subbarayan, M. Vinayak

- Alterations in histones of the liver and oviduct of Japanese quail during aging** 15
R.N. Mishra, M.S. Kanungo

- Mice lacking *Snrpn* expression show normal regulation of neuronal alternative splicing events** 19
J.D. Huntriss, J.A. Barr, D.A. Horn, D.G. Williams, D.S. Latchman

- Dynamics of telomere turnover in *Plasmodium berghei*** 27
E. Dore, T. Pace, L. Picci, E. Pizzi, M. Ponzi, C. Frontali

Methodology paper

- Site-specific RNA crosslinking with 4-thiouridine** 35
E.J. Sontheimer

Volume 20 No. 2 1994

Review

- Organization of (pre-)mRNA metabolism in the cell nucleus** 45
D.G. Wansink, R. van Driel, L. de Jong

Research articles

- Proteasomes (prosome) inhibit the translation of Tobacco mosaic virus RNA by preventing the formation of initiation complexes** 57
S. Homma, A. Horsch, M.-N. Pouch, F. Petit, Y. Briand, H.-P. Schmid

- The specificity of disease-associated anti-fibrillarin autoantibodies compared with that of HgCl₂-induced autoantibodies** 63
B. Lübken, N. Rottmann, M. Kubicka-Muranyi, E. Gleichmann, R. Lührmann

- A retinoic acid-inducible skin-specific gene (RIS-1/psoriasin): molecular cloning and analysis of gene expression in human skin *in vivo* and cultured skin cells *in vitro*** 75
A. Tavakkol, C.C. Zouboulis, E.A. Duell, J.J. Voorhees

- Carbohydrate specificity of IgM autoantibodies to CD45 in Systemic Lupus Erythematosus** 85
P.D. Fernsten, J.K. Czyzyk, T. Mimura, J.B. Winfield

Methodology paper

All you wanted to know about SELEX

S.J. Klug, M. Famulok

97

Volume 20 No. 3 1994/1995*Review***Single-stranded DNA binding protein encoded by the filamentous bacteriophage** 109-127**M13: structural and functional characteristics**

A.P.M. Stassen, R.H.A. Folmer, C.W. Hilbers, R.N.H. Konings

*Research articles***Effect of CPT on the DNA cleavage/religation reaction mediated by calf thymus** 129-133**Topoisomerase I: evidence of an inhibition of DNA religation** *Inhibition of**Topoisomerase I-mediated DNA religation by CPT*

M.C. Carboni, S. Coderoni

Isolation and characterization of a multienzyme complex containing DNA replica- 135-141**tive enzymes from mitochondria of *S. cerevisiae*** *Multienzyme complex from yeast mitochondria*

V. Murthy, K. Pasupathy

SV40 large T antigen-induced inhibition of terminal differentiation of primary 143-148**skeletal muscle cells is associated with a block in the expression of MyoD and myogenin**

F.A.J.M. Van De Klundert, H. Bloemendal

Determination of base specificity of multiple ribonucleases from crude samples 149-154

Y.-D. Liao

A novel human type I hair keratin gene: evidence for two keratin hHa3 isoforms 155-161

M.A. Rogers, J. Schweizer, T. Krieg, H. Winter

*Methodology paper****In vitro* nucleo-cytoplasmic transport** 163-171

C. Marshallsay

Volume contents 173-174**Author Index** 175**Instructions to authors** 176-178
